

Release Notes for Sage 100 2014 Product Update 7 (5.10.7.0)

The following is a list of enhancements and corrections that have been incorporated for Sage 100 2014 in this Product Update. Product Updates are cumulative, comprised of all program corrections found in prior updates. Smart Update will install only the programs that need to be updated since your last Product Update Installation. **If you choose to install this Product Update on a system that already has Product Update 7 installed, all programs released in Product Updates 1 through 7 will be reinstalled.**

This Product Update also contains program corrections introduced in 5.00.5.0 through 5.00.8.0, included in this report for reference.

Sage 100 Advanced and Premium Workstation Synchronization now updates the client workstation automatically. This replaces the need to run WKsUpdate.exe after installing a product update. Users running Sage 100 Standard over a network will still need to run WKsUpdate Standard.exe on each workstation. This program is located in the ..\mas90\wksetup directory on the Sage 100 2014 Standard Server.

All Sage 100 2014 Product Updates require the installation to be from the Sage 100 Server.

An updated "eBusiness Web Services.exe" was introduced in Product Update 5 and is being installed to the Sage 100 2014 Server's ..\MAS90\WS folder to correct the following issue: "UnitPrice is no longer being reset in Sales Order Detail when previewing orders with eBusiness Web Services." Existing eBusiness Web Services users should update their existing installation by uninstalling the existing eBusiness Web Services and installing the updated version. (OPTIONAL Method, existing users can replace their existing Sage100ERP.WebServices.dll with the updated version also located in the ..\MAS90\WS folder on the Sage 100 2014 Server.) New eBusiness Web Services users should install using the updated "eBusiness Web Services.exe" located in the Sage 100 2014 Server's ..\MAS90\WS folder.

Accounts Payable

New in Sage 100 2014 Product Update 7 (5.10.7.0)

- 1 Electronic payment now recognizes a previously used discount after reversing the payment and recalling invoices.

DE 102701

Business Insights

New in Sage 100 2014 Product Update 7 (5.10.7.0)

- 1 MS Office 2013 64 bit users are now able to export data to Microsoft Access Database (.accdb) from Business Insights Explorer.
There are two required components:
 1. An updated Sage 100 ERP exapp.exe program that is automatically installed with Sage 100 ERP 2015.
 2. The x86 (32 bit) version of the Access Database Engine.
 - a. This can be downloaded and installed using the following link
<http://www.microsoft.com/en-us/download/details.aspx?id=13255>
 - i. Click download
 - ii. Select AccessDatabaseEngine.exe (x86 version of drivers)
 - iii. Click Next
 - iv. When asked to Save or Run, select Run and follow the installation instructions.
 - b. If the x64 version of the database engine is installed you will not be able to install the x86 version of the database engine required for Sage 100 Business Insights Explorer. To resolve, uninstall the x64 version via Control Panel\Programs and Features then install the x86 version of the database engine.

- 13 "Another version of this product is already installed. Installation of this version cannot continue." message no longer occurs when attempting to run Sage 100 ERP 2014 Standard Workstation Setup on a system that also has Sage 100 ERP 2013 Standard Workstation Setup Installed.
DE 102791 KBID 32407

- 14 All Sage 100 Reports will be installed with this Update. These reports will have all occurrences of the Microsoft Sans Serif Bold and Italic fonts replaced with Arial Bold and Italic Fonts . The fonts are being replaced to improve report performance and decrease the size of .PDF files generated from Paperless Office.
- Report (.RPT) Keywords updated to 5.10b
 - Microsoft Sans Serif 'regular' fonts will not be changed
 - Font Sizes will not be changed
 - Font Types will not be changed (Microsoft Sans Serif BOLD will change to Arial BOLD)
 - The PU install will replace all Sage 100 'standard' reports in the MAS90\Reports directory with updated reports. Please make a backup of any modified Sage 100 'standard' reports located in the MAS90\Reports directory.
 - User customized reports located under the MAS_XXX\reports or MAS_System\ directories or user created reports will not be affected by the PU install.
 - User modified reports run from the launcher will generate a prompt to update the report the first time accessed from the Sage 100 launcher, a backup of the original pre-converted report with the file extension .RP_ will be created.

The majority of report font changes will be:

- Report Header Information
- Page Footer Information
- Report Detail Column Headers and Report field descriptions.
- Customer actual data will not change

Note* Users who do not want the fonts on their customized reports changed must update the .RPT Keywords from "Converted to version 5.10" to "Converted to version 5.10b", preferably prior to installing the PU.

The Keywords can be modified manually via the Crystal Designer or utilizing the Sage 100 Report Conversion Utility. Prior to installing 2014 PU1 (5.10.1.0),

- Modify \mas90\home\masrcrw.ini

FROM TO

[Version] [Version]

Key=5.10 Key=5.10b

- Execute \mas90\home\masrcrw.exe
 - Point to the directory where the reports are stored
- DE 102765

DE 104585
- 5 Sales Order Quotes are no longer preauthorized when running SO Batch Authorization.
DE 104681
- 6 Sales Recap by Division now displays the Calendar year, PTD and YTD correctly.
DE 104329 KBID 59957

Previously Released in Sage 100 2014 Product Update 6 (5.10.6.0)

- 7 Salesperson Split Commission Rate no longer changes in Sales Order Data Entry when Using Office Merge Feature.
DE 104424 KBID 61192
- 8 Message, "Quantity packed does not match the quantity shipped" no longer occurs with similar items in Shipping Data Entry.
DE 104295 KBID 59494 Resolution ID 423616

Previously Released in Sage 100 2014 Product Update 5 (5.10.5.0)

- 9 "Quantity Packed Does Not Equal Quantity Shipped" warning no longer appears when Quantity is negative or has more than 2 decimal places in S/O Shipping Entry.
DE 103848 KBID 53182
- 10 SO - Sporadic mismatch between the Totals on the Order Lines tab and Totals tab has been resolved.
DE 103808 KBID 52666
- 11 Error 65 AR_CreditCard.pvc 748 no longer occurs when updating Sales Journal with credit card transactions.
DE 102777
- 12 UnitPrice is no longer being reset in Sales Order Detail when previewing orders with eBusiness Web Services.
An updated "eBusiness Web Services.exe" is being installed to the Sage 100 ERP 2014 Server's ..\MAS90\WS folder.
Existing eBusiness Web Services users should update their existing installation by uninstalling the existing eBusiness Web Services and installing the updated version. (OPTIONAL Method, existing users can replace their existing Sage100ERP.WebServices.dll with the updated version also located in the ..\MAS90\WS folder on the Sage 100 ERP 2014 Server.)
New eBusiness Web Services users should install using the updated "eBusiness Web Services.exe" located in the Sage 100 ERP 2014 Server's ..\MAS90\WS folder.
DE 104077

- 13 AP Invoice Data Entry Performance has been improved.
DE 104203
- 14 ProcessReport() no longer fails in SO invoice printing vb script run outside of Sage 100.
DE 103672
- 15 Error: "One or more journals may be out of balance" no longer occurs when updating SO Daily Transaction Journal for an alpha-numeric invoice number that is less than 7 digits long with tax.
DE 103787 KBID 52147

Previously Released in Sage 100 2014 Product Update 4 (5.10.4.0)

- 16 Message is now received in Shipping Data Entry if packaged quantity does not match shipped quantity for any items in the shipping invoice.
DE 103290 KBID 40665
- 17 Negative invoice quantity will now distribute to a new or zero quantity Serial cost tier.
DE 101592
- 18 Custom Paper Size is now retained by Dot Matrix printer.
DE 103420
- 19 The message, "Data is not selected for report printing" no longer occurs when the option "Keep window open after preview" is checked in Open Sales Order Report.
DE 103222 KBID 40376

Previously Released in 5.00.8.0

- 20 Message: "Data is not selected for report printing" no longer occurs when printing/previewing the Open Sales Order Report when Print/Preview in window is selected and new customer is selected.
DE 103109 KBID 38614
- 21 The component Alias Item number now populates SO_SalesOrderDetail.m4t.
DE 103347 KBID 43244
- 22 Message is now received in Shipping Data Entry if packaged quantity does not match shipped quantity for any items in the shipping invoice.
DE 103237 KBID 40665
- 23 The Pay Balance checkbox is no longer selected in Sales Order Invoice Data Entry for Sales Orders with deposit transactions and net invoice balances.
DE 102889 KBID 34529
- 24 The Custom paper size is now held by dot matrix printer when printing Sales Order Invoice.
DE 103421
- 25 The Error: "Data is not selected for report printing" no longer occurs when printing the Open Sales Order Report for Internet Orders only.
DE 103476 KBID 45812

Previously Released in Sage 100 2014 Product Update 3 (5.10.3.0)

- 26 Line 1 and Line 2 messages now appear on Sales Order Invoices in Sage 100 ERP 2014.
DE 103115 KBID 38652
- 27 Error 65, SO_COMMONENTRY.PVC, line 2105 in Sales Order Entry and Invoice Data Entry no longer occurs when Sales Order is integrated with Job Cost and Inventory is not integrated with Job Cost.
DE 102849 KBID 33268

Previously Released in 5.00.7.0

- 28 In Sales Order Entry, Lines Tab, When you search by description the search results no longer sort by Item code.
DE 103074 KBID 38116 Resolution ID 404495
- 29 During sales order entry inventory items with extended descriptions are no longer removed from the lines tab after toggling between tabs.
DE 102938 KBID 35239
- Previously Released in Sage 100 2014 Product Update 1 (5.10.1.0)**
- 30 The message, "Data is not selected for report printing" no longer occurs in Sales Order printing when using Electronic Delivery Only.
DE 102655 KBID 29528
- Previously Released in 5.00.5.0**
- 31 Error: "A not on file payment type was found" no longer occurs when removing credit card reference from a credit memo from RMA and Sales Order Invoice Data Entry.
DE 102240
- 32 Back Ordered Quantity now recalculates in Shipping Data Entry regardless of the "allow changes to backorder" option
DE 101977
- 33 Sales Order Daily Deposit Recap report, does not show deposit amounts has been fixed.
DE 101973
- 34 SY_Error was modified so that when a hard error occurs outside of a UI environment the pvxwin32.exe or pvxcom.exe process will be released.
DE 102324
- 35 "The [blank] is invalid" error message when entering lines in invoice entry while entering Lot items no longer occurs.
DE 102298
- 36 Line Items added to a Sales Order Invoice do not appear in SO/Quote History Inquiry when the second added item is backordered.
DE 102559

TimeCard

Previously Released in 5.00.8.0

- 1 A calculated overtime rate will now print on the Certified Payroll Report when Print Standard or Calculated Wage Rate is set to "Standard" in TimeCard & TimeClock Options.
DE 103245 KBID 40824

Visual Integrator

Previously Released in Sage 100 2014 Product Update 4 (5.10.4.0)

- 1 Columns are no longer ignored when exporting multiple fields to same column using conditional expressions.
DE 103217 KBID 40277

Previously Released in 5.00.8.0

- 2 Importing into AR_CashReceiptsDeposit no longer hangs when using Next Deposit number while Batch Entry is enabled.
DE 103146 KBID 38886

Previously Released in Sage 100 2014 Product Update 3 (5.10.3.0)

- 3 Error 1 VI_EXPORT_UI.PVC 1288 no longer occurs when running VI Export with selection of UDF field containing 4000 characters.
DE 103085 KBID 38365

Previously Released in 5.00.5.0

- 4 VI Import and Export Jobs ran through shortcuts or batch files will now cycle
DE 101982

Work Order Processing

Previously Released in Sage 100 2014 Product Update 6 (5.10.6.0)

- 1 Lot quantity available in Work Order Transaction Material Entry now displays correctly when distributing multiple lines of same item and lot.
DE 104310 KBID 59675 Resolution ID 425005

Previously Released in Sage 100 2014 Product Update 5 (5.10.5.0)

- 2 Work Order Transaction Journal no longer stops responding or causes corrupt data when a fractional quantity is Completed for a Serialized item.
DE 103739 KBID 51387

Previously Released in 5.00.8.0

- 3 Lot or serial numbers are now available to distribute in Work Order Transaction Material Issue.
DE 103537 KBID 47640

- 4 The Quantity Committed is now cleared in IM_ItemCost when a Work Order Completion transaction with a Backflush Material issue transaction is deleted from data entry.
DE 103260 KBID 41154

Previously Released in 5.00.7.0

- 5 WO Cost Rollup and WO Inquiry no longer show different cost for Work orders with phantom sub-assemblies.
DE 102163

Previously Released in 5.00.5.0

- 6 Work Order no longer uses the cost hierarchy when calculating the work order standard material costs, if a Standard Cost valued item has zero cost.
DE 101986

- 7 Work Order Cost Roll-up Register - when using the % of cost method to calculate overhead, Cost Roll-up incorrectly uses the % of cost from the previous step has been fixed.
